

HOPKINS GREASE CO.

Restaurant Grease Recycling & Grease Trap Service

“We are the Original Recyclers”

Did you know, Hopkins Grease Company are environmentally aware recyclers and have been for over fifty years...

- We know Grease. To us Grease is the word.
- We will be in the restaurant grease recycling business long after current fads and subsidies have ended.
- We will provide the best value to you for your waste cooking oil.
- We are always striving to better our operations to provide you with the service you deserve with state of the art equipment and highly trained personnel.
- Our experience and expertise in Grease allows us to give you the options you need to stay compliant with regulations.
- We assure you that the proper handling of your waste material will never be an issue or concern to you.
- We will provide the needed documentation and have the proper license and permits to give you piece of mind.

Our family
serving your
family since
1947.

Enhancing Your Way of Life

Our industry has research staff dedicated to providing the best use for waste cooking oils which ensures you the highest value. It includes Biodiesel as well as many items including feed additives, paints, cosmetics, soaps, rubber tires and much more.

Please contact us if you ever have any questions or concerns about how the grease we collect from your facility is processed and recycled into many useful products that benefit us all and enhance our American way of life.
